

SAFETY DATA SHEET

Zoetis New Zealand Limited

Section 1: Identification of the Substance and Supplier

Trade Name:	CANEX[®] Cube Palatable All Wormer for Dogs
ACVM Registration No.:	A007593
Classification:	Unrestricted
Recommended Use:	Oral endoparasiticide for treatment of roundworm, hookworm, whipworm, and tapeworm infections in adult dogs & puppies.
Company Details:	Zoetis New Zealand Limited
Address:	Level 5, 8 Mahuhu Crescent Auckland Central Auckland 1010 New Zealand
Telephone No.:	0800 963 847 (Business Hours)
Emergency Telephone No.:	National Poisons Centre: 0800 POISON (0800 764 766) Emergency Services: In an emergency dial 111
Date of Preparation:	30 June 2014

Section 2: Hazards Identification

Hazard Classification:	Not applicable
Priority Identifier(s):	KEEP OUT OF REACH OF CHILDREN
Secondary Identifier(s):	Not applicable

Section 3: Composition / Information on Ingredients

Chemical Identity of Ingredients

Ingredient	CAS No.	Concentration
Pyrantel pamoate	22204-24-6	23.8 g/kg
Oxantel pamoate	68813-55-8	90.5 g/kg
Praziquantel	55268-74-1	8.3 g/kg
Other ingredients determined not to be hazardous.	-	-

This is a commercial product whose exact ratio of components may vary.
Trace quantities of impurities are also likely.

Section 4: First Aid Measures

Necessary First Aid Measures:	<p>For advice contact the National Poisons Centre at 0800 POISON (0800 764 766) or a doctor immediately. If the patient is not breathing begin artificial respiration and seek medical advice immediately. Never give fluids or induce vomiting if a patient is unconscious or convulsing, regardless of injury.</p> <p>Ingestion: DO NOT induce vomiting. If the patient is conscious wash mouth out with water. Do not give anything by mouth to an unconscious person. Seek medical advice immediately.</p> <p>Eye Contact: Flush the eye(s) out with running water for at least 15 minutes. Removal of contact lenses should be done with caution within 5 minutes of exposure. If symptoms develop seek medical advice immediately.</p> <p>Skin Contact: Remove any contaminated clothing and wash the affected area immediately with soap and water. If symptoms develop seek medical advice immediately.</p> <p>Inhalation: Move the patient to fresh air. If symptoms develop seek medical advice immediately.</p>
Poisoning Symptoms:	Significant ingestion of this material may cause effects similar to those seen in clinical use including nausea, vomiting, abdominal cramps, anorexia, diarrhoea, and constipation. Central nervous system effects such as dizziness, headache, insomnia, irritability and weakness have also been reported.
Workplace Facilities:	No specific facilities required. Standard emergency equipment must be available.
Hygiene Practices:	Avoid ingestion, contact with skin and eyes, and inhalation of dusts, mists or vapours. Do not eat, drink or smoke while using this product. Wash hands and exposed skin before eating, drinking or smoking and after work. Wash any protective clothing after use.
Notes for Medical Personnel:	Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient. Note the nature of this product.

Section 5: Fire-Fighting Measures

Type of hazard:	This product is non-flammable, non-combustible and non-explosive.
Fire Hazard Properties:	Fire decomposition products from this product may form toxic and corrosive mixtures in confined spaces.
Regulatory Requirements:	Not applicable.
Extinguishing Media & Methods:	Use dry chemical, foam, carbon dioxide or water to extinguish fires involving this product.
Hazchem Code:	Not allocated.
Recommended Protective Clothing:	During large-scale fire fighting operations wear approved positive pressure, self-contained breathing apparatus and full protective turn-out gear.

Section 6: Accidental Release Measures

Personal Precautions:	Personnel involved in clean-up should wear appropriate personal protective equipment to minimise exposure. This may include eye protection, chemically resistant gloves, boots and overalls.
Environmental Precautions:	Prevent material from entering surface water drains or waterways. If a significant quantity of material enters drains, advise emergency services.
Procedure for Spills:	<ol style="list-style-type: none">1. Non-essential personnel should be evacuated from the affected area.2. Stop leak and contain the source of spill if it is safe to do so. Reposition any leaking containers to minimise further leakage.3. Absorb the spill with an absorbent material (e.g. sand).4. Collect the spilled material into labelled containers for disposal, minimising dust generation.5. Decontaminate the spill area thoroughly with detergent and water, preventing runoff from entering drains.
Procedure for Disposal:	Contaminated material must be disposed of at an approved landfill or other approved facility in accordance with local, regional and national requirements. Avoid contamination of any water supply with product or empty container.

Section 7: Handling and Storage

Handling

Precautions for Safe Handling:	No special technical protective measures required. No special handling advice required.
Regulatory Requirements:	Not required.
Handling Practices:	Avoid ingestion, contact with skin and eyes, and inhalation of dusts, mists or vapours. Do not eat, drink or smoke while handling this product. Wash hands and exposed skin before eating, drinking or smoking and after work. Wash any protective clothing after use.
Approved Handlers:	Approved handlers are not required for this product.

Storage

Conditions for Safe Storage:	Store below 30°C (Room Temperature). Keep out of reach of children. Store in a well ventilated area in the original container, tightly closed, away from foodstuffs.
Store Site Requirements:	No additional requirements.
Packaging:	Store in the original container, away from foodstuffs.

Section 8: Exposure Control / Personal Protection

Always Read and Follow the Label Instructions and Warnings

Workplace Exposure Guidelines

Workplace Exposure Standards:	A time weighted average (TWA) concentration for an 8-hour day and a 5-day week has not been established by NOHSC Australia for any of the major ingredients in this product. There is a blanket limit of 10 mg/m ³ for dusts or mists when limits have not otherwise been established.
Application in the Workplace:	The nature of this product makes it unlikely that this level will be approached during normal handling.
Exposure Standards Outside the Workplace:	None set.
Engineering Controls:	Engineering controls should be used as the primary means to control exposures. Use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits.
Personal Protection:	<p>The following instructions are for those coming into frequent and / or lengthy contact with this product. For occasional handling employ precautions suitable for the conditions under which the product is being handled.</p> <p>Hands: Impervious gloves are recommended if skin contact is possible and for bulk processing operations.</p> <p>Eyes: It is always prudent to utilise protective eyewear.</p> <p>Skin: When prolonged or frequently repeated contact could occur, utilise chemically protective clothing. Selection of specific items such as a face shield, gloves, boots, or overalls will depend on the situation.</p> <p>Respiratory: Respiratory protection is not normally required; however, if necessary utilise an air-purifying respirator that complies with NZ standards.</p>
General Hygiene:	Change work clothes regularly. Avoid ingestion, contact with skin and eyes, and inhalation of dusts, mists or vapours. Do not eat, drink or smoke while handling this product. Wash hands and exposed skin before eating, drinking or smoking and after work. Wash any protective clothing after use.

Section 9: Physical and Chemical Properties

Appearance:	Cubed, dried meat
Odour:	Sharp, meaty odour
Specific Gravity / Density:	Not applicable
Melting Point:	Decomposes before melting
Boiling Point:	Not data available
pH:	Not data available
Solubility in Water:	Partly soluble
Flashpoint:	Not applicable. This product is not flammable.
Oxidising Properties:	Not applicable. This product is not an oxidiser.
Corrosive Properties:	Not applicable. This product is not corrosive.
Vapour Pressure:	Not applicable

Section 10: Stability and Reactivity

Stability of the Substance:	This product is stable under normal conditions of use.
Conditions to Avoid:	Store as recommended. No special conditions to avoid.
Material to Avoid:	Strong oxidising agents.
Hazardous Decomposition Products:	This product is unlikely to spontaneously decompose. Carbon dioxide and, if combustion incomplete, carbon monoxide and smoke. Nitrogen and, under some circumstances, oxides of nitrogen. Oxides of sulphur (sulphur dioxide is a respiratory hazard). Water.
Hazardous Polymerisation:	This product is unlikely to spontaneously polymerise.
Specific Data:	No specific data available.

Section 11: Toxicological Information

HSNO Classifications

Not applicable. This product is not classified as toxic.

Acute Effects

Acute Toxicity:	Data suggests that the product should be considered to be possibly harmful by ingestion. Active ingredients are relatively insoluble and are poorly absorbed by the gut. This product may be irritating to the gastrointestinal tract. May cause minor inconvenience. Praziquantel (Species, Route, End Point, Dose): <ul style="list-style-type: none">• Rat Oral LD50 2840 mg/kg Pyrantel pamoate (Species, Route, End Point, Dose): <ul style="list-style-type: none">• Mouse Oral LD50 > 24 g/kg• Rat Oral LD50 > 24g/kg• Mouse Intraperitoneal LD50 = 620 mg/kg• Rat Intraperitoneal LD50 = 535 mg/kg
Eye Contact:	Data suggests that this product should present no significant problems to typical persons if used as intended.
Skin Contact:	Data suggests that this product should present no significant problems to typical persons if used as intended.
Inhalation:	Data suggests that this product should present no significant problems to typical persons if used as intended.

Chronic / Long Term Effects

Repeated Dose Toxicity:	Pyrantel pamoate: (Duration, Species, Route, Dose, End Point, Target Organ): <ul style="list-style-type: none">• 1 Month(s) Rat Oral 500 mg/kg/day NOAEL None identified• 1 Month(s) Dog Oral 50 mg/kg/day LOAEL Gastrointestinal system, Liver• 13 Week(s) Rat Oral 300 mg/kg/day NOAEL None identified• 13 Week(s) Dog Oral 100 mg/kg/day NOAEL Gastrointestinal system, Liver
--------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Reproduction & Developmental Toxicity:

- Praziquantel:
(Study Type, Species, Route, Dose, End Point, Effect(s)):
- Prenatal & Postnatal Development Rat No route specified 300 mg/kg/day NOEL Not teratogenic
 - Prenatal & Postnatal Development Rabbit No route specified 200 mg/kg/day NOEL Not Teratogenic
 - Reproductive & Fertility Rat No route specified 8000 mg/kg/day NOEL No effects at maximum dose

- Pyrantel pamoate:
(Study Type, Species, Route, Dose, End Point, Effect(s)):
- Reproductive & Fertility Rat Oral 250 mg/kg NOAEL No effects at maximum dose
 - Prenatal & Postnatal Development Rat Oral 250 mg/kg NOAEL No effects at maximum dose
 - Embryo / Foetal Development Rat Oral 250 mg/kg NOAEL Not Teratogenic
 - Embryo / Foetal Development Rabbit Oral 250 mg/kg NOAEL Not Teratogenic

Genetic Toxicity:

- Praziquantel:
(Study Type, Cell Type/Organism, Result):
- Mammalian Cell Mutagenicity Not specified Negative

- Pyrantel pamoate:
(Study Type, Cell Type/Organism, Result):
- Bacterial Mutagenicity (Ames) *Salmonella* Negative

Carcinogenicity:

- Praziquantel:
(Duration, Species, Route, Dose, End Point, Effect(s)):
- 2 Year(s) Rat No route specified Not carcinogenic
 - 2 Year(s) Hamster No route specified Not carcinogenic

None of the components of this formulation are listed as a carcinogen by IARC, NTP or OSHA.

Section 12: Ecotoxicity Information

HSNO Classifications

Not applicable. This product is not classified as ecotoxic.

The environmental characteristics of this material have not been fully evaluated.
Avoid contamination of any water supply with product or empty container.

Ecotoxicity Effects

Toxicity to Birds:	Not applicable
Acute Toxicity to Fish:	Not applicable
Toxicity to Algae:	Not applicable
Toxicity to Aquatic Invertebrates:	Not applicable
Toxicity to Soil Dwelling Organisms:	Not applicable
Acute Toxicity to Bees:	Not applicable

Environmental Fate

No information available.

Section 13: Disposal Considerations

Product Disposal: Preferably dispose of product by use in accordance with label directions. Otherwise dispose of product at an approved landfill, or other approved facility in accordance with local, regional and national regulations. Avoid contamination of any water supply with product.

Container Disposal: Dispose of empty containers by wrapping in paper and putting in garbage for disposal at an approved landfill, or other approved facility in accordance with local, regional and national regulations. Avoid contamination of any water supply with empty container.

Section 14: Transport Information

Dangerous Goods Classification

UN No.: Not applicable. This product is not a dangerous good.

Class: Not applicable. This product is not a dangerous good.

Packing Group: Not applicable. This product is not a dangerous good.

Proper Shipping Name: Not applicable. This product is not a dangerous good.

Section 15: Regulatory Information

HSNO Approval No.: HSR001940

HSNO Controls: See www.epa.govt.nz for controls

ACVM Registration No.: A0007593

ACVM Controls: See www.foodsafety.govt.nz for registration conditions

Section 16: Other Information

Note: This product is a veterinary medicine and must therefore be used in accordance with the container label directions. A comprehensive package of toxicological and environmental data for the active ingredients of this product has been submitted to the Government health and environment authorities and has been evaluated by expert toxicologists and environmental scientists.

This Safety Data Sheet summarises our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace including in conjunction with other products.

PLEASE READ ALL LABELS CAREFULLY BEFORE USING PRODUCT.

If clarification of further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company.
