

SAFETY DATA SHEET

Pfizer New Zealand Limited
14 Normanby Road, Mt Eden, Auckland

Section 1: IDENTIFICATION OF THE SUBSTANCE AND SUPPLIER

Trade Name:	SCOURGUARD® 4(K)
ACVM Registration No.:	A010057
Classification:	Restricted Veterinary Medicine
Recommended Use:	An injectable vaccine for the vaccination of healthy, pregnant cows and heifers as an aid in preventing disease in calves caused by bovine Group A rotavirus, bovine coronavirus, and the enterotoxigenic strains of <i>Escherichia coli</i> having the K99 pili adherence factor. Vaccination of pregnant cows and heifers with ScourGuard 4(K) has also been shown to reduce bovine rotavirus shedding (percent days positive) in calves.
Company Details:	Pfizer New Zealand Limited
Address:	Level 3, Pfizer House 14 Normanby Road Mt Eden Auckland 1024 NEW ZEALAND
Telephone No.:	0800 650 277 (Business Hours)
Emergency Telephone No.:	National Poisons Centre: 0800 POISON (0800 764 766) Emergency Services: In an emergency dial 111
Date of Preparation:	3 March 2011

Section 2: HAZARDS IDENTIFICATION

Hazard Classification:	6.5B
Priority Identifier(s):	KEEP OUT OF REACH OF CHILDREN
Secondary Identifier(s):	6.5B May cause an allergic skin reaction. Avoid skin contact.

Section 3: COMPOSITION / INFORMATION ON INGREDIENTS

MIXTURE:		
Chemical Identity of Ingredients		
Ingredient	CAS No.	Concentration
<i>Bovine Rotavirus</i> serotype G6	N/A	Variable
<i>Bovine Rotavirus</i> serotype G10	N/A	Variable
<i>Bovine Coronavirus</i>	N/A	Variable
<i>E. Coli</i> (K99 pilus antigen)	N/A	Variable
Thiomersal	54-64-8	Proprietary
Other ingredients determined not to be hazardous.	-	-

This is a commercial product whose exact ratio of components may vary.
Trace quantities of impurities are also likely.

Section 4: FIRST AID MEASURES

Necessary First Aid Measures:	<p>For advice contact the National Poisons Centre at 0800 POISON (0800 764 766) or a doctor immediately. If the patient is not breathing begin artificial respiration and seek medical advice immediately. Never give fluids or induce vomiting if a patient is unconscious or convulsing, regardless of injury.</p> <p>Self-Injection: Immediate medical advice should be sought on the management of all instances of accidental self-injection, particularly those near a joint or associated with bruising. Allow the wound to bleed freely and avoid squeezing the injection site to avoid spread of the product. Clean the wound thoroughly with soap and water, and then keep it clean and dry.</p> <p>Ingestion: DO NOT induce vomiting. If the patient is conscious wash mouth out with water. Do not give anything by mouth to an unconscious person. Seek medical advice immediately.</p> <p>Eye Contact: Flush the eye(s) out with running water for at least 15 minutes. Removal of contact lenses should be done with caution within 5 minutes of exposure. If symptoms develop seek medical advice immediately.</p> <p>Skin Contact: Remove any contaminated clothing and wash the affected area immediately with soap and water. If symptoms develop seek medical advice immediately.</p> <p>Inhalation: Move the patient to fresh air. If symptoms develop seek medical advice immediately.</p>
Poisoning Symptoms:	No specific information available.
Workplace Facilities:	No specific facilities required. Standard emergency equipment must be available.
Hygiene Practices:	Avoid self-injection, ingestion, contact with skin and eyes, and inhalation of dusts, mists or vapours. Do not eat, drink or smoke while using this product. Wash hands and exposed skin before eating, drinking or smoking and after work. Wash any protective clothing after use.
Notes for Medical Personnel:	Accidental self-injection may lead to an inflammatory response and deep injections, particularly those near a joint or associated with bruising should be treated medically or surgically.

Section 5: FIRE-FIGHTING MEASURES

Type of hazard:	This product is non-flammable, non-combustible and non-explosive.
Fire Hazard Properties:	This product is unlikely to decompose at temperatures normally achieved in a fire. This product is likely to decompose only after heating to dryness followed by further strong heating.
Regulatory Requirements:	Not applicable.
Extinguishing Media and Methods:	Use dry chemical, foam, carbon dioxide or water to extinguish fires involving this product.
Hazchem Code:	Not allocated.
Recommended Protective Clothing:	During large-scale fire fighting operations wear approved positive pressure, self-contained breathing apparatus and full protective turn-out gear.

Section 6: ACCIDENTAL RELEASE MEASURES

Personal Precautions:	Personnel involved in clean-up should wear appropriate personal protective equipment to minimise exposure. This may include eye protection, chemically resistant gloves, boots and overalls.
Environmental Precautions:	Prevent material from entering surface water drains or waterways. If a significant quantity of material enters drains, advise emergency services.
Procedure for Spills:	<ol style="list-style-type: none">1. Non-essential personnel should be evacuated from the affected area.2. Stop leak and contain the source of spill if it is safe to do so. Reposition any leaking containers to minimise further leakage.3. Absorb the spill with an absorbent material (e.g. sand).4. Collect the spilled material into labelled containers for disposal, minimising dust generation.5. Decontaminate the spill area thoroughly with detergent and water, preventing runoff from entering drains.
Procedure for Disposal:	Contaminated material must be disposed of at an approved landfill or other approved facility in accordance with local, regional and national requirements. Avoid contamination of any water supply with product or empty container.

Section 7: HANDLING AND STORAGE

HANDLING:

Precautions for Safe Handling:	No special technical protective measures required. No special handling advice required.
Regulatory Requirements:	Not required.
Handling Practices:	Avoid self-injection, ingestion, contact with skin and eyes, and inhalation of dusts, mists or vapours. Do not eat, drink or smoke while handling this product. Wash hands and exposed skin before eating, drinking or smoking and after work. Wash any protective clothing after use.
Approved Handlers:	Approved handlers are not required for this product.

STORAGE:

Conditions for Safe Storage:	Store between 2°C to 8°C (Refrigerate. Do not freeze). Protect from light. Keep out of reach of children. Store in a well ventilated area in the original container, tightly closed, away from foodstuffs.
Store Site Requirements:	No additional requirements.
Packaging:	Store in the original container, away from foodstuffs.

Section 8: EXPOSURE CONTROL / PERSONAL PROTECTION

ALWAYS READ AND FOLLOW THE LABEL INSTRUCTIONS AND WARNINGS

WORKPLACE EXPOSURE GUIDELINES:

Workplace Exposure Standards:	A time weighted average (TWA) concentration for an 8-hour day and a 5-day week has not been established by NOHSC Australia for any of the major ingredients in this product. There is a blanket limit of 10 mg/m ³ for dusts or mists when limits have not otherwise been established.
Application in the Workplace:	The nature of this product makes it unlikely that this level will be approached during normal handling.
Exposure Standards Outside the Workplace:	None set.
Engineering Controls:	Engineering controls should be used as the primary means to control exposures. Use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits.
Personal Protection:	<p>The following instructions are for those coming into frequent and / or lengthy contact with this product. For occasional handling employ precautions suitable for the conditions under which the product is being handled.</p> <p>Hands: Impervious gloves are recommended if skin contact is possible and for bulk processing operations.</p> <p>Eyes: It is always prudent to utilise protective eyewear.</p> <p>Skin: When prolonged or frequently repeated contact could occur, utilise chemically protective clothing. Selection of specific items such as a face shield, gloves, boots, or overalls will depend on the situation.</p> <p>Respiratory: Respiratory protection is not normally required; however, if necessary utilise an air-purifying respirator that complies with NZ standards.</p>
General Hygiene:	Change work clothes regularly. Avoid self-injection, ingestion, contact with skin and eyes, and inhalation of dusts, mists or vapours. Do not eat, drink or smoke while handling this product. Wash hands and exposed skin before eating, drinking or smoking and after work. Wash any protective clothing after use.

Section 9: PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Aqueous liquid suspension.
Odour:	No information available
Specific Gravity / Density:	1.0 ± 0.2
Melting Point:	Not applicable
Boiling Point:	> 100°C
pH:	5.5 – 8.5
Solubility in Water:	Soluble
Flashpoint:	Not applicable. This product is not flammable
Oxidising Properties:	Not applicable. This product is not an oxidiser
Corrosive Properties:	Not applicable. This product is not corrosive
Vapour Pressure:	No data available

Section 10: STABILITY & REACTIVITY

Stability of the Substance:	This product is stable under normal conditions of use.
Conditions to Avoid:	Store as recommended. Prolonged exposure to higher temperatures may adversely affect potency.
Material to Avoid:	None known.
Hazardous Decomposition Products:	This product is unlikely to spontaneously decompose. No significant quantities of decomposition products are expected at temperatures normally achieved in a fire.
Hazardous Polymerisation:	This product is unlikely to spontaneously polymerise.
Specific Data:	No specific data available.

Section 11: TOXICOLOGICAL INFORMATION

HSNO CLASSIFICATIONS:

6.5B May cause an allergic skin reaction. Avoid skin contact.

ACUTE EFFECTS:

Principle routes of exposure are expected to be by skin contact, accidental self-injection, ingestion and/or inhalation of syringe-expressed aerosols. As with any chemical product contact with unprotected bare skin; inhalation of vapour, mist or dust in the workplace atmosphere; or ingestion in any form should be avoided by observing good occupational work practices.

Self-Injection:	Local injection site reactions in humans may occur from accidental self-injection through the skin.
Ingestion:	This is considered an unlikely route of exposure in commercial / industrial environments. This material is non-toxic but may be harmful if swallowed in large quantities.
Eye contact:	This material may be mildly discomforting to the eyes.
Skin Contact:	This material may be mildly discomforting to the skin and may cause an allergic reaction if exposure is prolonged. Local injection site reaction in humans may occur from accidental self-injection through the skin.
Inhalation:	Not normally a hazard due to the non-volatile nature of the product. The spray mist may be discomforting to the upper respiratory tract and lungs, and repeated exposure may cause sensitisation and/or and allergic response.

CHRONIC / LONG-TERM EFFECTS:

No data is available relating to the effects of chronic / long-term exposure to this product.

Section 12: ECOTOXICITY INFORMATION

HSNO CLASSIFICATIONS:

Not applicable. This product is not classified as ecotoxic.

The environmental characteristics of this material have not been fully evaluated.
Avoid contamination of any water supply with product or empty container.

ECOTOXIC EFFECTS:

Toxicity to Birds:	Not applicable
Acute Toxicity to Fish:	Not applicable
Toxicity to Algae:	Not applicable
Toxicity to Aquatic Invertebrates:	Not applicable
Toxicity to Soil Dwelling Organisms:	Not applicable
Acute Toxicity to Bees:	Not applicable

ENVIRONMENTAL FATE:

No information available.

Section 13: DISPOSAL CONSIDERATIONS

Product Disposal:	Preferably dispose of product by use in accordance with label directions. Otherwise dispose of product at an approved landfill, or other approved facility in accordance with local, regional and national regulations. Avoid contamination of any water supply with product or empty container.
Container Disposal:	Dispose of empty containers by wrapping in paper and putting in garbage for disposal at an approved landfill, or other approved facility in accordance with local, regional and national regulations. Avoid contamination of any water supply with product or empty container. Used needles and syringes should immediately be placed in a designated and appropriately labelled "sharps" container.

Section 14: TRANSPORT INFORMATION

DANGEROUS GOODS CLASSIFICATION:

UN No.:	Not applicable. This product is not a dangerous good.
Class:	Not applicable. This product is not a dangerous good.
Packing Group:	Not applicable. This product is not a dangerous good.
Proper Shipping Name:	Not applicable. This product is not a dangerous good.

Section 15: REGULATORY INFORMATION

HSNO Approval No.:	HSR000015
HSNO Controls:	See http://www.ermanz.govt.nz/search/registers.html for controls.
ACVM Registration No.:	A010057
ACVM Controls:	See http://www.nzfsa.govt.nz/acvm/ for registration conditions.

Section 16: OTHER INFORMATION

Note: This product is a veterinary medicine and must therefore be used in accordance with the container label directions. A comprehensive package of toxicological and environmental data for the active ingredients of this product has been submitted to the Government health and environment authorities and has been evaluated by expert toxicologists and environmental scientists.

National Poisons Centre:	0800 POISON (0800 764 766)
Emergency Services:	Dial 111

This Safety Data Sheet summarises our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace including in conjunction with other products.

PLEASE READ ALL LABELS CAREFULLY BEFORE USING PRODUCT.

If clarification of further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company.
