

Treatment Plan

Treatment plan to create a flea-free home

To eradicate any fleas that have followed your dog back to your place and made a home for themselves there, do all of the following as thoroughly as possible:

- Treat all your dogs and cats with Revolution
- Vacuum lounge chairs and cushions (and bin or burn the vacuum bag immediately afterwards)
- Throw out any cushions you think could have infestations
- Wash pet bedding in hot water
- Clean out the kennel or basket
- Vacuum the car
- Vacuum or wash rugs, and administer flea control treatment
- Wash any household bedding in hot water at least 60°C
