

SAFETY DATA SHEET

Zoetis New Zealand Limited

Section 1: Identification of the Substance and Supplier

Trade Name:	CONVENIA®
ACVM Registration No.:	A010032
Classification:	Restricted Veterinary Medicine (RVM)
Recommended Use:	Injectable antibiotic for treatment of bacterial infections in dogs and cats.
Company Details:	Zoetis New Zealand Limited
Address:	Level 4, 8 Mahuhu Crescent Auckland Central Auckland 1010 New Zealand
Telephone No.:	0800 963 847 (Business Hours)
Emergency Telephone No.:	National Poisons Centre: 0800 POISON (0800 764 766) Emergency Services: In an emergency dial 111
Date of Preparation:	01 July 2019

Section 2: Hazards Identification

Hazard Classification:	6.5B
Priority Identifier(s):	WARNING - KEEP OUT OF REACH OF CHILDREN
Secondary Identifier(s):	6.5B May cause an allergic skin reaction. Avoid skin contact.

Section 3: Composition / Information on Ingredients

Chemical Identity of Ingredients

Ingredient	CAS No.	Concentration
Cefovecin (as cefovecin sodium)	141195-77-9	852 mg/vial
Other ingredients determined not to be hazardous.	-	-

This is a commercial product whose exact ratio of components may vary.
Trace quantities of impurities are also likely.

Section 4: First Aid Measures

Necessary First Aid Measures:	<p>For advice contact the National Poisons Centre at 0800 POISON (0800 764 766) or a doctor immediately. If the patient is not breathing begin artificial respiration and seek medical advice immediately. Never give fluids or induce vomiting if a patient is unconscious or convulsing, regardless of injury.</p> <p>Self-Injection: Immediate medical advice should be sought on the management of all instances of accidental self-injection, particularly those near a joint or associated with bruising. Allow the wound to bleed freely and avoid squeezing the injection site to avoid spread of the product. Clean the wound thoroughly with soap and water, then keep it clean and dry.</p> <p>Ingestion: DO NOT induce vomiting. If the patient is conscious wash mouth out with water. Do not give anything by mouth to an unconscious person. Seek medical advice immediately.</p> <p>Eye Contact: Flush the eye(s) out with running water for at least 15 minutes. Removal of contact lenses should be done with caution within 5 minutes of exposure. If symptoms develop seek medical advice immediately.</p> <p>Skin Contact: Remove any contaminated clothing and wash the affected area immediately with soap and water. If symptoms develop seek medical advice immediately.</p> <p>Inhalation: Move the patient to fresh air. If symptoms develop seek medical advice immediately.</p>
Poisoning Symptoms:	Individuals sensitive to beta-lactam antibiotics, both penicillins and cephalosporins, may experience contact or systemic hypersensitivity and anaphylaxis upon exposure to this drug. Additionally, kidney toxicity (nephrotoxicity) and Pseudomembranous colitis (manifested by watery diarrhoea, urge to defecate, abdominal cramps, low-grade fever, bloody stools, and abdominal pain) may also occur.
Workplace Facilities:	No specific facilities required. Standard emergency equipment must be available.
Hygiene Practices:	Avoid self-injection, ingestion, contact with skin and eyes, and inhalation of dusts, mists or vapours. Do not eat, drink or smoke while using this product. Wash hands and exposed skin before eating, drinking or smoking and after work. Wash any protective clothing after use.
Notes for Medical Personnel:	Accidental self-injection may lead to an inflammatory response and deep injections, particularly those near a joint or associated with bruising, should be treated medically or surgically.

Section 5: Fire-Fighting Measures

Type of hazard:	This product is not flammable; however, irritating and possibly toxic gases may be generated by thermal decomposition or combustion.
Fire Hazard Properties:	This product is unlikely to decompose at temperatures normally achieved in a fire. Likely to decompose only after heating to dryness followed by further strong heating.
Regulatory Requirements:	Not applicable.
Extinguishing Media & Methods:	Use dry chemical, carbon dioxide or water to extinguish fires involving this product.
Hazchem Code:	Not allocated.
Recommended Protective Clothing:	During large-scale fire fighting operations wear approved positive pressure, self-contained breathing apparatus and full protective turn-out gear.

Section 6: Accidental Release Measures

Personal Precautions:	Personnel involved in clean-up should wear appropriate personal protective equipment to minimise exposure. This may include eye protection, chemically resistant gloves, boots and overalls.
Environmental Precautions:	Prevent material from entering surface water drains or waterways. If a significant quantity of material enters drains, advise emergency services.
Procedure for Spills:	<ol style="list-style-type: none">1. Non-essential personnel should be evacuated from the affected area.2. Stop leak and contain the source of spill if it is safe to do so. Reposition any leaking containers to minimise further leakage.3. Absorb the spill with an absorbent material (e.g. sand).4. Collect the spilled material into labelled containers for disposal, minimising dust generation.5. Decontaminate the spill area thoroughly with detergent and water, preventing runoff from entering drains.
Procedure for Disposal:	Contaminated material must be disposed of at an approved landfill or other approved facility in accordance with local, regional and national requirements. Avoid contamination of any water supply with product or empty container.

Section 7: Handling and Storage

Handling

Precautions for Safe Handling:	No special technical protective measures required. No special handling advice required.
Regulatory Requirements:	Not required.
Handling Practices:	Avoid self-injection, ingestion, contact with skin and eyes, and inhalation of dusts, mists or vapours. Do not eat, drink or smoke while handling this product. Wash hands and exposed skin before eating, drinking or smoking and after work. Wash any protective clothing after use.
Approved Handlers:	Approved handlers are not required for this product.

Storage

Conditions for Safe Storage:	Store between 2°C to 8°C (Refrigerate. Do not freeze). Protect from light. Keep out of reach of children. Store in a well ventilated area in the original container, tightly closed, away from foodstuffs.
Store Site Requirements:	No additional requirements.
Packaging:	Store in the original container, away from foodstuffs.

Section 8: Exposure Control / Personal Protection

Always Read and Follow the Label Instructions and Warnings

Workplace Exposure Guidelines

Workplace Exposure Standards:	A time weighted average (TWA) concentration for an 8-hour day and a 5-day week has not been established by NOHSC Australia for any of the major ingredients in this product. There is a blanket limit of 10 mg/m ³ for dusts or mists when limits have not otherwise been established.
Application in the Workplace:	The nature of this product makes it unlikely that this level will be approached during normal handling.
Exposure Standards Outside the Workplace:	None set.
Engineering Controls:	Engineering controls should be used as the primary means to control exposures. Use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits.
Personal Protection:	<p>The following instructions are for those coming into frequent and / or lengthy contact with this product. For occasional handling employ precautions suitable for the conditions under which the product is being handled.</p> <p>Hands: Impervious gloves are recommended if skin contact is possible and for bulk processing operations.</p> <p>Eyes: It is always prudent to utilise protective eyewear.</p> <p>Skin: When prolonged or frequently repeated contact could occur, utilise chemically protective clothing. Selection of specific items such as a face shield, gloves, boots, or overalls will depend on the situation.</p> <p>Respiratory: Respiratory protection is not normally required; however, if necessary utilise an air-purifying respirator that complies with NZ standards.</p>
General Hygiene:	Change work clothes regularly. Avoid self-injection, ingestion, contact with skin and eyes, and inhalation of dusts, mists or vapours. Do not eat, drink or smoke while handling this product. Wash hands and exposed skin before eating, drinking or smoking and after work. Wash any protective clothing after use.

Section 9: Physical and Chemical Properties

Appearance:	Off-white to yellow freeze-dried powder
Odour:	No data available
Specific Gravity / Density:	1.0909 g/mL
Melting Point:	No data available
Boiling Point:	No data available
pH:	6.2 – 7.5 (reconstituted)
Solubility in Water:	Soluble
Flashpoint:	Not applicable. This product is not flammable
Oxidising Properties:	Not applicable. This product is not an oxidiser
Corrosive Properties:	Not applicable. This product is not corrosive
Vapour Pressure:	Not applicable

Section 10: Stability and Reactivity

Stability of the Substance:	This product is stable under normal conditions of use.
Conditions to Avoid:	No information available.
Material to Avoid:	No information available.
Hazardous Decomposition Products:	This product is not flammable, however, irritating and possibly toxic gases may be generated by thermal decomposition or combustion.
Hazardous Polymerisation:	This product is unlikely to spontaneously polymerise.
Specific Data:	No specific data available.

Section 11: Toxicological Information

HSNO Classifications

6.5B May cause an allergic skin reaction. Avoid skin contact.

Acute Effects

This is an antibiotic preparation, and has mild acute effects. However, if taken in large quantities, or under non-medical supervision, may cause adverse health effects. Unlikely to cause problems if used in accordance with directions.

Acute Toxicity:	(Species, Route, End Point, Dose):
	<ul style="list-style-type: none">• Rat Oral LD50 >2000 mg/kg• Rat Dermal LD50 >2000 mg/kg• Dog Oral Maximally Tolerated Dose >2000 mg/kg• Dog Subcutaneous Maximally Tolerated Dose >2000 mg/kg

A greater than symbol (>) indicates that the toxicity endpoint being tested was not achievable at the highest dose used in the test.

Irritation / Sensitisation:	(Study Type, Species, Severity):
	<ul style="list-style-type: none">• Eye Irritation Rabbit Minimal• Skin Irritation Rabbit Non-irritating• Skin Sensitisation – LLNA Mouse Positive

Chronic / Long Term Effects

Repeated Dose Toxicity:	(Duration, Species, Route, Dose, End Point, Target Organ):
	<ul style="list-style-type: none">• 5 Week(s) Dog Subcutaneous 60 mg/kg/day NOAEL No effects at max dose• 5 Week(s) Cat Subcutaneous 60 mg/kg/day NOAEL No effects at max dose• 16 Week(s) Dog Subcutaneous 40 mg/kg/day NOAEL No effects at max dose• 18 Week(s) Cat Subcutaneous 40 mg/kg/day NOAEL Gastrointestinal system
Genetic Toxicity:	(Study Type, Cell Type / Organism, Result):
	<ul style="list-style-type: none">• Bacterial Mutagenicity (Ames) <i>Salmonella, E. coli</i> Negative• <i>In Vivo</i> Micronucleus Rat Bone Marrow Negative• Mammalian Cell Mutagenicity Mouse Lymphoma Equivocal without activation
Carcinogenicity:	None of the components of this formulation are listed as carcinogenic by IARC, NTP or OSHA.

Section 12: Ecotoxicity Information

HSNO Classifications

Not applicable. This product is not classified as ecotoxic.

The environmental characteristics of this material have not been fully evaluated.
Avoid contamination of any water supply with product or empty container.

Ecotoxicity Effects

- Aquatic Toxicity:** (Species, Method, End Point, Duration, Result):
- *Daphnia magna* (Water Flea) NPDES EC50 48 Hours >1000 mg/L
 - *Mysidopsis bahia* (Mysid Shrimp) NPDES LC50 48 Hours 580 mg/L
 - *Cyprinodon variegates* (Sheepshead Minnow) NPDES LC50 48 Hours 770 mg/L
- A greater than symbol (>) indicates that the toxicity endpoint being tested was not achievable at the highest dose used in the test.
- Bacterial Inhibition:** (Species, Method, End Point, Duration, Result):
- Polytox Surrogate IC50 4 Hours 10.31 mg/L
 - Polytox Surrogate MIC 4 Hours 1.85 mg/L

Environmental Fate

No information available.

Section 13: Disposal Considerations

- Product Disposal:** Preferably dispose of product by use in accordance with label directions. Otherwise dispose of product at an approved landfill, or other approved facility in accordance with local, regional and national regulations. Avoid contamination of any water supply with product.
- Container Disposal:** Dispose of empty containers by wrapping in paper and putting in garbage for disposal at an approved landfill, or other approved facility in accordance with local, regional and national regulations. Avoid contamination of any water supply with empty container. Used needles and syringes should immediately be placed in a designated and appropriately labelled "sharps" container.

Section 14: Transport Information

Dangerous Goods Classification

- UN No.:** Not applicable. This product is not a dangerous good.
- Class:** Not applicable. This product is not a dangerous good.
- Packing Group:** Not applicable. This product is not a dangerous good.
- Proper Shipping Name:** Not applicable. This product is not a dangerous good.

Section 15: Regulatory Information

- HSNO Approval No.:** HSR007875
- HSNO Controls:** See www.epa.govt.nz for controls
- ACVM Registration No.:** A010032
- ACVM Controls:** See www.foodsafety.govt.nz for registration conditions

Section 16: Other Information

Note: This product is a veterinary medicine and must therefore be used in accordance with the container label directions. A comprehensive package of toxicological and environmental data for the active ingredients of this product has been submitted to the Government health and environment authorities and has been evaluated by expert toxicologists and environmental scientists.

This Safety Data Sheet summarises our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace including in conjunction with other products.

PLEASE READ ALL LABELS CAREFULLY BEFORE USING PRODUCT.

If clarification of further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company.
