

# SAFETY DATA SHEET

Zoetis New Zealand Limited

## Section 1: Identification of the Substance and Supplier

<b>Trade Name:</b>	<b>DRAXXIN<sup>®</sup> Injectable Antibiotic Solution</b>
<b>ACVM Registration No.:</b>	A010814
<b>Classification:</b>	Restricted Veterinary Medicine (RVM)
<b>Recommended Use:</b>	For the treatment of bacterial disease susceptible to tulathromycin including respiratory disease and pinkeye in cattle; and respiratory disease in pigs.
<b>Company Details:</b>	Zoetis New Zealand Limited
<b>Address:</b>	Level 4, 8 Mahuhu Crescent Auckland Central Auckland 1010 New Zealand
<b>Telephone No.:</b>	0800 963 847 (Business Hours)
<b>Emergency Telephone No.:</b>	National Poisons Centre: 0800 POISON (0800 764 766) Emergency Services: In an emergency dial 111
<b>Date of Preparation:</b>	01 July 2019

## Section 2: Hazards Identification

<b>Hazard Classification:</b>	6.4A, 6.5B, 6.9B, 9.1A.
<b>Priority Identifier(s):</b>	KEEP OUT OF REACH OF CHILDREN ECOTOXIC
<b>Secondary Identifier(s):</b>	6.4A May cause eye irritation. Avoid contact with the eyes. 6.5B May cause an allergic skin reaction. Avoid skin contact. 6.9B May cause target organ damage from repeated oral exposure at high doses. 9.1A Very toxic to aquatic organisms. Avoid contamination of any water supply with product or empty container.

## Section 3: Composition / Information on Ingredients

### Chemical Identity of Ingredients

Ingredient	CAS No.	Concentration
Tulathromycin	217500-96-4	100mg/mL
Other ingredients determined not to be hazardous.	-	-

This is a commercial product whose exact ratio of components may vary.  
Trace quantities of impurities are also likely.

## Section 4: First Aid Measures

<b>Necessary First Aid Measures:</b>	<p><b>For advice contact the National Poisons Centre at 0800 POISON (0800 764 766) or a doctor immediately.</b> If the patient is not breathing begin artificial respiration and seek medical advice immediately. Never give fluids or induce vomiting if a patient is unconscious or convulsing, regardless of injury.</p> <p><b>Self-Injection:</b> Immediate medical advice should be sought on the management of <b>all</b> instances of accidental self-injection, particularly those near a joint or associated with bruising. Allow the wound to bleed freely and avoid squeezing the injection site to avoid spread of the product. Clean the wound thoroughly with soap and water, then keep it clean and dry.</p> <p><b>Ingestion:</b> DO NOT induce vomiting. If the patient is conscious wash mouth out with water. Do not give anything by mouth to an unconscious person. Seek medical advice immediately.</p> <p><b>Eye Contact:</b> Flush the eye(s) out with running water for at least 15 minutes. Removal of contact lenses should be done with caution within 5 minutes of exposure. If symptoms develop seek medical advice immediately.</p> <p><b>Skin Contact:</b> Remove any contaminated clothing and wash the affected area immediately with soap and water. If symptoms develop seek medical advice immediately.</p> <p><b>Inhalation:</b> Move the patient to fresh air. If symptoms develop seek medical advice immediately.</p>
<b>Poisoning Symptoms:</b>	Ingestion may cause effects similar to those generally seen in clinical use of antibiotics including gastrointestinal irritation, vomiting, transient diarrhoea, nausea and abdominal pain.
<b>Workplace Facilities:</b>	No specific facilities required. Standard emergency equipment must be available.
<b>Hygiene Practices:</b>	Avoid self-injection, ingestion, contact with skin and eyes, and inhalation of dusts, mists or vapours. Do not eat, drink or smoke while using this product. Wash hands and exposed skin before eating, drinking or smoking and after work. Wash any protective clothing after use.
<b>Notes for Medical Personnel:</b>	Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient. Note the nature of this product.

## Section 5: Fire-Fighting Measures

<b>Type of hazard:</b>	This product is not flammable; however, irritating and potentially toxic gases may be generated by thermal decomposition or combustion.
<b>Fire Hazard Properties:</b>	May emit toxic fumes of oxides of carbon and nitrogen.
<b>Regulatory Requirements:</b>	Not applicable.
<b>Extinguishing Media &amp; Methods:</b>	Use dry chemical, carbon dioxide or water to extinguish fires involving this product.
<b>Hazchem Code:</b>	None allocated.
<b>Recommended Protective Clothing:</b>	During large-scale fire fighting operations wear approved positive pressure, self-contained breathing apparatus and full protective turn-out gear.

## Section 6: Accidental Release Measures

<b>Personal Precautions:</b>	Personnel involved in clean-up should wear appropriate personal protective equipment to minimise exposure. This may include eye protection, chemically resistant gloves, boots and overalls.
<b>Environmental Precautions:</b>	Prevent material from entering surface water drains or waterways. If a significant quantity of material enters drains, advise emergency services.
<b>Procedure for Spills:</b>	<ol style="list-style-type: none"><li>1. Non-essential personnel should be evacuated from the affected area.</li><li>2. Stop leak and contain the source of spill if it is safe to do so. Reposition any leaking containers to minimise further leakage.</li><li>3. Absorb the spill with an absorbent material (e.g. sand).</li><li>4. Collect the spilled material into labelled containers for disposal, minimising dust generation.</li><li>5. Decontaminate the spill area thoroughly with detergent and water, preventing runoff from entering drains.</li></ol>
<b>Procedure for Disposal:</b>	Contaminated material must be disposed of at an approved landfill or other approved facility in accordance with local, regional and national requirements. Avoid contamination of any water supply with product or empty container.

## Section 7: Handling and Storage

### Handling

<b>Precautions for Safe Handling:</b>	No special technical protective measures required. No special handling advice required.
<b>Regulatory Requirements:</b>	Not required.
<b>Handling Practices:</b>	Avoid self-injection, ingestion, contact with skin and eyes, and inhalation of dusts, mists or vapours. Do not eat, drink or smoke while handling this product. Wash hands and exposed skin before eating, drinking or smoking and after work. Wash any protective clothing after use.
<b>Approved Handlers:</b>	Approved handlers are not required for this product.

### Storage

<b>Conditions for Safe Storage:</b>	Store below 30°C (Room Temperature). Keep out of reach of children. Store in a well ventilated area in the original container, tightly closed, away from foodstuffs.
<b>Store Site Requirements:</b>	No additional requirements.
<b>Packaging:</b>	Store in the original container, away from foodstuffs.

## Section 8: Exposure Control / Personal Protection

### Always Read and Follow the Label Instructions and Warnings

Workplace Exposure Guidelines	
<b>Workplace Exposure Standards:</b>	A time weighted average (TWA) concentration for an 8-hour day and a 5-day week has not been established by NOHSC Australia for any of the major ingredients in this product. There is a blanket limit of 10 mg/m <sup>3</sup> for dusts or mists when limits have not otherwise been established.
<b>Application in the Workplace:</b>	The nature of this product makes it unlikely that this level will be approached during normal handling.
<b>Exposure Standards Outside the Workplace:</b>	None set.
<b>Engineering Controls:</b>	Engineering controls should be used as the primary means to control exposures. Use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits.
<b>Personal Protection:</b>	<p>The following instructions are for those coming into frequent and / or lengthy contact with this product. For occasional handling employ precautions suitable for the conditions under which the product is being handled.</p> <p><b>Hands:</b> Impervious gloves are recommended if skin contact is possible and for bulk processing operations.</p> <p><b>Eyes:</b> It is always prudent to utilise protective eyewear.</p> <p><b>Skin:</b> When prolonged or frequently repeated contact could occur, utilise chemically protective clothing. Selection of specific items such as a face shield, gloves, boots, or overalls will depend on the situation.</p> <p><b>Respiratory:</b> Respiratory protection is not normally required; however, if necessary utilise an air-purifying respirator that complies with NZ standards.</p>
<b>General Hygiene:</b>	Change work clothes regularly. Avoid self-injection, ingestion, contact with skin and eyes, and inhalation of dusts, mists or vapours. Do not eat, drink or smoke while handling this product. Wash hands and exposed skin before eating, drinking or smoking and after work. Wash any protective clothing after use.

## Section 9: Physical and Chemical Properties

<b>Appearance:</b>	Clear, colourless to slightly yellow solution essentially free from foreign matter.
<b>Odour:</b>	No data available
<b>Specific Gravity / Density:</b>	No data available
<b>Melting Point:</b>	No data available
<b>Boiling Point:</b>	No data available
<b>pH:</b>	5.1 to 5.7
<b>Solubility in Water:</b>	Freely soluble in water
<b>Flashpoint:</b>	Not applicable. This product is not flammable.
<b>Oxidising Properties:</b>	Not applicable. This product is not an oxidiser.
<b>Corrosive Properties:</b>	Not applicable. This product is not corrosive.
<b>Vapour Pressure:</b>	No data available

## Section 10: Stability and Reactivity

<b>Stability of the Substance:</b>	This product is stable under normal conditions of use.
<b>Conditions to Avoid:</b>	Fine particles (such as dust and mists) may fuel fires/explosions.
<b>Material to Avoid:</b>	As a precautionary measure, keep away from strong oxidisers.
<b>Hazardous Decomposition Products:</b>	No data available.
<b>Hazardous Polymerisation:</b>	This product is unlikely to spontaneously polymerise.
<b>Specific Data:</b>	No specific data available.

## Section 11: Toxicological Information

### HSNO Classifications

- 6.4A** May cause eye irritation. Avoid contact with the eyes.
- 6.5B** May cause an allergic skin reaction. Avoid skin contact.
- 6.9B** May cause target organ damage from repeated oral exposure to high doses.

### Acute Effects

**Acute Toxicity:** Tulathromycin (Species, Route, End Point, Dose):

- Rat (Oral) LD<sub>min</sub> > 2000mg/kg
- Rabbit (Dermal) LD<sub>50</sub> > 2000mg/kg

A greater than symbol (>) indicates that the toxicity endpoint being tested was not achievable at the highest dose used in the test.

**Sensitisation:** Tulathromycin (Study Type, Species, Severity):

- Eye Irritation (Rabbit) Positive
- Skin Irritation (Rabbit) Non-irritating
- Skin sensitisation – GPMT Guinea Pig Severe

### Chronic / Long Term Effects

**Repeated Dose Toxicity:** Tulathromycin (Duration, Species, Route, Dose, End Point, Target Organ):

- 1 month Rat Oral 50mg/kg/day NOAEL Liver, Blood
- 3 months Rat Oral 15 mg/kg/day NOAEL Liver
- 1 month Dog Oral 15 mg/kg/day NOAEL Liver
- 3 months (Dog) Oral 5mg/kg/day NOEL Liver
- 1 year Dog Oral 5mg/kg/day NOAEL Liver, male reproductive system

#### Reproduction

**& Developmental Toxicity:** Tulathromycin (Duration, Species, Route, Dose, End Point, Target Organ):

- 2 Generation Reproductive Toxicity Rat Oral 50mg/kg/day NOAEL Paternal toxicity
- 2 Generation Reproductive Toxicity Rat Oral 100mg/kg/day NOAEL Neonatal toxicity, Fertility
- Embryo/Foetal Development Rat Oral 200mg/kg/day NOAEL No effects at maximum dose
- Embryo/Foetal Development Rabbit Oral 50mg/kg/day NOAEL

No effects at maximum dose

**Mutagenicity:**  
Organ):

Tulathromycin (Duration, Species, Route, Dose, End Point, Target

- Bacterial Mutagenicity (Ames) Salmonella Negative
- *In Vitro* Chromosome Aberration Human Lymphocytes Negative
- *In Vivo* Micronucleus Chromosome Aberration Rat Negative
- *In Vitro* Chromosome Aberration Chinese Hamster Ovary (CHO) cells Negative
- *In Vitro* Mammalian Cell Mutagenicity Chinese Hamster Ovary (CHO) cells Negative

**Carcinogenicity:**

None of the components of this formulation are listed as a carcinogen by IARC, NTP or OSHA.

## Section 12: Ecotoxicity Information

### HSNO Classifications

**9.1A** Very toxic to aquatic organisms. Avoid contamination of any water supply with product or empty container.

The environmental characteristics of this material have not been fully evaluated.  
Avoid contamination of any water supply with product or empty container.

### Ecotoxicity Effects

<b>Tulathromycin:</b>	Based on the concentration of the active ingredient in the product, no harmful effects to aquatic organisms are expected. The active ingredient was not acutely toxic to aquatic organisms at its maximum solubility, see aquatic toxicity data below.
<b>Toxicity to Birds:</b>	No data available
<b>Acute Toxicity to Fish:</b>	<ul style="list-style-type: none"><li>• <i>Cyprinodon variegatus</i> (Sheepshead Minnow) OECD LC50 48 Hours 20 mg/L</li><li>• <i>Oncorhynchus mykiss</i> (Rainbow Trout) OECD LC50 96 Hours &gt; 982 mg/L</li></ul>
<b>Toxicity to Algae:</b>	<i>Selenastrum capricornutum</i> (Green Alga) OECD EC-50 72 Hours 70 ug/L
<b>Toxicity to Aquatic Invertebrates:</b>	<ul style="list-style-type: none"><li>• <i>Daphnia magna</i> (Water Flea) OECD EC50 48 Hours 64 mg/L</li><li>• <i>Mysidopsis bahia</i> (Mysid Shrimp) OECD LC50 48 Hours 20 mg/L</li></ul>
<b>Toxicity to Soil Dwelling Organisms:</b>	Bacterial Inhibition (Inoculum, Method, End Point,Result) Polytox IC-50 24 Hours 19 mg/L
<b>Acute Toxicity to Bees:</b>	No data available

### Environmental Fate

No information available.

## Section 13: Disposal Considerations

- Product Disposal:** Preferably dispose of product by use in accordance with label directions. Otherwise dispose of product at an approved landfill, or other approved facility in accordance with local, regional and national regulations. Avoid contamination of any water supply with product.
- Container Disposal:** Dispose of empty containers by wrapping in paper and putting in garbage for disposal at an approved landfill, or other approved facility in accordance with local, regional and national regulations. Avoid contamination of any water supply with empty container. Used needles and syringes should immediately be placed in a designated and appropriately labelled "sharps" container.

## Section 14: Transport Information

### Dangerous Goods Classification

- UN No.:** Not applicable. This product is not a dangerous good.
- Class:** Not applicable. This product is not a dangerous good.
- Packing Group:** Not applicable. This product is not a dangerous good.
- Proper Shipping Name:** Not applicable. This product is not a dangerous good.

## Section 15: Regulatory Information

- HSNO Approval No.:** HSR100692
- HSNO Controls:** See [www.epa.govt.nz](http://www.epa.govt.nz) for controls
- ACVM Registration No.:** A010814
- ACVM Controls:** See [www.foodsafety.govt.nz](http://www.foodsafety.govt.nz) for registration conditions

## Section 16: Other Information

**Note:** This product is a veterinary medicine and must therefore be used in accordance with the container label directions. A comprehensive package of toxicological and environmental data for the active ingredients of this product has been submitted to the Government health and environment authorities and has been evaluated by expert toxicologists and environmental scientists.

**CONTACT POINT:**

<b>Zoetis New Zealand Limited:</b>	0800 963 847 (Business Hours)
<b>National Poisons Centre:</b>	0800 POISON (0800 764 766)
<b>Emergency Services:</b>	Dial 111

This Safety Data Sheet summarises our best knowledge of the health and safety hazard information of the product and how to safely handle and use the product in the workplace. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace including in conjunction with other products.

### PLEASE READ ALL LABELS CAREFULLY BEFORE USING PRODUCT.

If clarification of further information is needed to ensure that an appropriate risk assessment can be made, the user should contact this company.
